

# Our successes

The party for the enterprising student

Leiden, April 16th 2018

## **Dear enterprising students,**

When we founded ONS Leiden in 2016, we could not have imagined the big enthusiastic welcome we got. Since that time we are proud to be the largest student party within the formal co-participation bodies of the university.

Our 27 heroes within those bodies did everything they could in the past two years to support your interests. In this document, we want to tell you about a lot of their little and big successes. But, there is plenty more.

Do you want to help us with our aims or do you have questions? Visit [stemons.nl/en](http://stemons.nl/en)!

With green greetings,

Alderik Oosthoek

Chairman ONS Leiden Faction in the University Council

# **The enterprising student**

- Abolishment BSA\*
- Increase of scholarships for board members of study- and student associations
- Free e-assessment training and CV-checks
- No additional master requirements

# **A green and sustainable university**

- Sustainable water taps in every university building
- No more plastic cups in the coffee vending machines
- More separation of waste
- Better and more sustainable assortment in the university canteens
- More solar panels
- Only sustainably built buildings

# **The best education**

- More study places during exam periods
- Improvement of the visibility and facilities of student psychologists
- Improvement Blackboard and uSis
